Instructions for using the Gymnastics Scoring File

Hardware requirements include a computer and a printer (copier). If your printer cannot make copies, use of school copier will be required.

| 1 | Make a copy of the master file. I usually name the file by the school and date (Exp. BWHS 12-8-08) | | | | | | | | | | |
|-------|---|-------|-------|-------|-----------|------|----------|------|----------|-------|----------|
| 2 | Insert the date and location of the meet on the Vault worksheet. It will copy to the other sheets. | | | | | | | | | | |
| 3 | Need the school rotation for each event. Enter the schools in the correct order for each event. | | | | | | | | | | |
| 4 | Enter the gymnasts for each school for each event. It is set up for up to 6 gymnast in each event. If there are less than 6, I usually leave the top spots open in case there are any adds. | | | | | | | | | | |
| 5 | Enter the all-around gymnasts and schools on the "AA-Team" worksheet. If any of the all-around gymnasts have an "#N/A" in any event, check the name spelling on that event or ensure they are competing in the event. | | | | | | | | | | |
| 6 | Delete the unused rows for the all-around gymnasts. Note: Do not delete the unused rows on the event sheets. | | | | | | | | | | |
| 7 | The team score calculations are set up to count the top 4 scores for team score. If this is incorrect, the formula in team score cells on the event worksheets will require adjustment. | | | | | | | | | | |
| 8 | Prior to the start of the meet but after the warmups (in case there are any changes), print two copies of the event worksheets and one copy of the AA-Team worksheet. One copy of each sheet is for your helper to manually record the scores. One copy of the event worksheet goes to each event as applicable. | | | | | | | | | | |
| 9 | In column G on each event worksheet, change the print color from white (hides the number) to black for each row with a gymnast competing. Same on column H on the AA-Team worksheet and row 50 for the four events. | | | | | | | | | | |
| 10 | As the scoresheets come in, check the scores and record the average score for each event and each gymnast, as applicable. I do not use the SJ (Senior Judge) or AJ (Alternate Judge) columns. Extra recording that is not required at these meets. The scores should be recorded in the excel file and on the manual sheets for backup for every gymnast. | | | | | | | | | | |
| 11 | At the end of each rotation, cross check the computer team scores to the manual check. If there is a discrepancy, check and correct as necessary. | | | | | | | | | | |
| 12 | Once an event is complete and all of the entries have been made in the computer, print a copy of the event worksheet. This is for the judge to check and sign. | | | | | | | | | | |
| 13 | When the worksheet is verified to be correct, use the macro as follows to make a copy of the worksheet and sort by finish. This is for use by whoever announces the results. <table border="0"> <thead> <tr> <th>Event</th> <th>Macro</th> </tr> </thead> <tbody> <tr> <td>Vault</td> <td>"Ctrl +w"</td> </tr> <tr> <td>Bars</td> <td>"Ctrl+b"</td> </tr> <tr> <td>Beam</td> <td>"Ctrl+y"</td> </tr> <tr> <td>Floor</td> <td>"Ctrl+p"</td> </tr> </tbody> </table> | Event | Macro | Vault | "Ctrl +w" | Bars | "Ctrl+b" | Beam | "Ctrl+y" | Floor | "Ctrl+p" |
| Event | Macro | | | | | | | | | | |
| Vault | "Ctrl +w" | | | | | | | | | | |
| Bars | "Ctrl+b" | | | | | | | | | | |
| Beam | "Ctrl+y" | | | | | | | | | | |
| Floor | "Ctrl+p" | | | | | | | | | | |
| 14 | When all four events are complete and the scores are verified, print a copy of the "AA-Team" worksheet. | | | | | | | | | | |
| 15 | I do not have a macro set up for the AA-Team worksheet. Just make a copy of the worksheet and then sort the AA and team (separately) by either score or place as you wish. Print a copy for the announcer. | | | | | | | | | | |
| 16 | Make copies of the signed copies of the four events and AA-Team (signature of judge not required) worksheets to give to each visiting team. The home team gets the originals. | | | | | | | | | | |

Save your work throughout the meet on a regular basis. If there are any errors that cannot be easily corrected, you have the manual backup that can be used if necessary.

Any questions or problems, contact me. Doug Pirkle Cell: (571) 345-4948, Home: (703) 430-5660.
